

I am writing to you because I am a proud business owner and supporter of Washington State's vibrant motion picture industry.

I know firsthand how the economic impact of motion picture production can transform a community. Having a production in your town means meals at restaurants, hotel rooms filled, groceries purchased from farmers markets, supplies rented with area vendors and wardrobe and set decorations purchased from local, main street shops. Every sector of the community feels the boost from a film production.

The legislature established the Motion Picture Competitiveness Program (MPCP) in 2006. Since then, the program has brought an estimated \$138M in direct spending and created approximately 21,700 family wage jobs for Washingtonians in communities across the state.

I am a business owner in your district that benefits directly from the economic boost that the MPCP provides. Having a vibrant local film industry helps me provide good, family wage jobs that provide health and retirement benefits for our full-time employees. I urge you to join me in supporting an industry that encourages a robust economy by generating revenue and opportunities for businesses like mine across Washington State.

Sincerely,
